# Webcam Models Guide

A little bit about me. I'm 67 years old and I own and maintain over 200 websites, adult and non adult websites. I have been in the webmasters business for over 20 years now. I took a break twice in the last twenty years, one because of health and the other, because I just got tired of it. I'm back now and going strong.

This ebook is for new and existing webcam models that want to take their modeling career to a new level from a viewers/watchers perspective point of view.

It might sound like I know it all at times as you read this ebook but really it's not that I know it all, it's just I know what I like and don't like when it comes to watching cam models perform. Models put in their profiles their turnoffs and turn-ons, well as a viewer, I have my turnoffs and turn-ons as well. I respect your wishes, so you should respect my wishes, meaning, I like watching cam models performing but most are not very good at performing, and some are just terrible and boring, so I leave them as quick as I can because there are too many of them doing it right to stay with one that is boring.

Cam models entertain and if they do it well, they will make more money and that is why they're doing it in the first place. Let's face it, if you were rich, you would not be cam modeling. It's a business/career and a good one at that. Where else can you go to make the money that you make, especially from home and your own hours. If I was a young man in my twenties, I would be doing it myself. I don't think at my age anyone would want to watch me.

I'm going to explain just what I mean by a boring cam model, so please don't be offended by what I say in this ebook. It's only to wake up cam models that may or may not be doing it right. Some of what I say may offend you but it's not meant to offend you just to let you know what a viewer likes and what a viewer doesn't like. This can make you a better cam model performer and this will make you more money.

Some outstanding cam performers get noticed by producers/agents. You think you make a lot of money cam modeling now. Producers and agents will pay you a lot more...

Not only are there producers and agents looking for talent, there are many agencies from all aspects of the media looking for talent of all kinds, all looks, races, genders, and sizes ect. Don't think that me as a watcher of cam models is the only kind that watch you. I know there is a lot of perverts that are nasty and rude watching you, but there is also agents watching you to seek out new talent, so keep this in mind because you may be the next model of the year, in a commercial, or even in the movies. Who knows it could be you. What and how you do it in front of the camera means a lot, and not just for the perverts, but others that are not perverts watching you.

I'm not a pervert now but maybe I was twenty years ago but in a good way my ex-wife would say. I now look for beautiful cam models to add to some of my sites to give my sites better content and when I find a beautiful cam model that really turns me on I will promote her on some of my websites. I'm an affiliate with many of the leading cam sites in the cam industry, and I know which ones are the best down to the worse. I will explain the best cams to work for a little later.

Not everything I say in this ebook will pertain to you as a cam model, but some of it may help you to understand a little better of what you do on camera can take you to another level of your cam modeling

career. You can make pennies, or dollars, and this is up to you how much money you want to make. Some cam models are living in fine homes, driving nice cars, have time and money to enjoy life, and not stuck in a 9 to 5 job which is a ball and chain on your life. Some cam models are making \$200,000 or more a year, but some rare cam models are making even more than that. You could be the one that makes \$300,000 a year. Below I will show you "What The Top Ten Cam Models Make". I've had this "What The Top Ten Cam Models Make" on some of my sites to show the potential of what a cam model can make. You can read it later on in this ebook.

I will show you some of the cam sites that I like the best and what they offer, and their competition. I will explain just what I like as a viewer/watcher and what I don't like. I'm not going to sugar coat it, and will be telling you like it is. I won't be saying vagina, when I'm talking about you in front of the camera with your pussy up to close. The word vagina will not come up.

I will be straight and forward and personal, but very truthful. What I say here is one viewers side and not all viewers may think like me so just don't take my word for it. I just want to let cam models know what I like and most of the men I have talked to agree with me. I have talked to many guys on this topic before I decided to write this ebook, so it's not just me talking here. Keep in mind, that the guys I talked to were not perverts, but enjoyed every now and then watching cam models. They told me what they liked and did not like, so I compared them to come up with the do's and don'ts of cam modeling which you can take some of my advice or not, this is all up to you. I'm not telling you, you must do this the way I want you to do it but letting you know what some viewers may or may not like. Also worth mentioning, you should have fun while performing in front of the camera. There's nothing wrong with enjoying yourself, but on the serious side, you could be losing money. You can have fun but also perform professionally.

I have been watching cam models for a long time now and still enjoy it, especially when I come across a beautiful cam model that I can't turn away from. This certain cam model that is just so beautiful that she takes your breath away. She doesn't have to do anything, just sets there and looks into the camera. This type of cam model is rare, but is what I look for. I have been writing down so many notes for this ebook. I hope I have covered everything.

## What I Like and Don't Like

What I like and don't like, my turn-ons, my turnoffs, and my wish list, of the perfect cam model. Yes as a viewer, I have a wish list just like you cam models have. A little more on your wish list later. Keep In Mind, this is just my point of view and not every viewer/watcher on the net, so don't take this personal.

The list below wont be in any certain order, just as I wrote them down in my notes. I will write each one from my notes from the top down, so they wont be in any particular order, but numbered so you can reference them later if you need to. When joining a new cam site, try hard to pick a great user/screen name. The number one thing to do first when joining a cam site is to pick a sexy name, a name that may pertain to you or what kind of cam modeling you're going to be doing on cam. If you're a sexy blonde than pick a name for that, like blonde babe, sexyhotblonde, ect. I know most good names are taken but be creative in picking a user/screen name because it is very important. I know you can use a lot of different letters, numbers, and characters, so don't just settle for a quick user/screen name. A good user/screen name can mean more traffic to your cams so pick wisely.

1: A great personality is a plus.

2: Smile a lot. And show your face more. This is very important!

3: Never be rude. Being rude will surely push your viewers away.

4: Never beg your viewers to buy tokens. This bothers me a lot and I will turn away. If you're doing everything right, I will tip you but I don't want to be asked to tip you. It's like your poor, begging, or desperate and it looks bad.

5: Never be demanding when performing. Demanding is a turnoff for many viewers. I know it turns me off and I will turn away.

6: Doing what you think is hot for the viewers may not be hot at all, so make sure you perform for your viewers and not just for you. Remember there is someone watching everything that you do. Some may be turned on and some may not be turned on. All cam models should know what a man wants, his fantasies, his turn-ons ect. A good cam model will know these things and if she doesn't, just do some Google searches and read up on the topic of what a man likes. You may be surprised to find out that it's not what you think it is. I know there are many perverts that really don't care what you do and will still pay, but there is a lot of men watching you that will pay big time if you're more of a lady on cams in good taste. There's an old saying, the perfect woman, a lady in the living-room, a good cook in the kitchen and a whore in the bedroom. This is true in most cases. I don't mean you should not be a little slutty, but a lady gets more attention in our world.

7: Asking your viewers what they like is a great way of knowing what to do and how to do it. This can be a learning experience for you as a cam model.

8: This is kind of personal but a must. If you have tits that may sag a little, it's best to have some kind of bra that holds your tits up. I don't mean to always wear a bra, but one that goes under your tits to keep them firm. I like firm tits and when they sag down It's a turnoff. I have seen cam models that have a bra on under their tits that hold them up. Most older women may have this problem. There's nothing wrong with sagging tits but it just doesn't look right, and there is a fix for this.

9: Being naked is best for most viewers and this is what I look for when searching for a cam model. The ones that have clothes on turns me away in most cases. A cam model should be naked.

10: Wearing sexy lingerie is great as long as it is see through. You don't want to cover up completely because your viewer is there to see you naked or wearing something very sexy.

11: Teasing is alright but not to much because if I'm watching a model and she is teasing to much I will leave. There is a time for teasing. For instance, I was watching this cam model and she held a pillow in front of her and only let it drop a little every now and then. She never showed herself naked, so I left the room. I was not there to be teased.

12: I'm not a fan of huge tits, but don't mind watching them. I like medium tits or small tits, but all are nice. Never have your tits to close to the camera because it looks terrible and way to big, plus the camera shows any blemishes you may have and when to close it looks bad. Cam models should stay back a short distance from the camera because everything looks much better. Skin tone looks better also. Never be to close to the camera. I'm not a fan of fake tits, but nothing wrong with them.

13: If a cam model is fully dressed and not in lingerie, I will leave. A cam model should be naked and ready to perform. I'm not there to see her in clothes, I can see that anywhere. Sexy lingerie or partially naked will do, but fully dressed on cam is a turnoff.

14: When I come across a model with her pussy stuck up in front of the camera to close, I leave. I don't want to see your pussy up close. It looks terrible up close to the camera. The same thing when you have your ass to close to the camera, it looks very bad, and shows all blemishes. Staying back a short distance from the camera is a plus because it shows better skin tone and you look smaller. Up close you look like you have a lot of weight on. Older women tend to have a little more weight on them and there is nothing wrong with that because I love older women. They should stay back a short distance from the camera and their skin tone will look much better and they will look smaller.

15: High heels are a plus with me but the ones that are to large is a turnoff for me, regular high heels will do fine. I prefer red, white, black, pink, or light blue myself. Platform high heels is a turnoff.

16: Cam models fucking a very large dildo is a turnoff for me and very nasty. You young cam model that use those large dildos will be sorry in your fifties, because your pussy will loose tightness and sex will not feel the same as it did when your pussy was tight. You're doing damage to your pussy fucking large dildos. Small dildos will do fine and not harm your pussy. I know what I'm talking about here, my girl-friend is in her sixties now and her pussy has lost it's tightness because I enjoyed fisting her and did not know the real damage until now.

17: Fake tits. I know I have already said something about this above but wanted to add this. I know a few women that's got fake tits, and now that their older they don't like them so much. My sister-inlaw was a nurse and saw a lot of older women die in the hospital with fake tits in their eighties and she said it looked terrible when the body was laying on the bed with no wrinkles on their tits and the rest of their body was all wrinkled up.

18: Tattoos. I don't mind small tattoos, but large ones are a turnoff for me. I also know a few older women with tattoos that wished they would have never got them because they were embarrassed now to have them. I know some women that got tattoos when young and then got married and had kids and

were embarrassed to have them. My sister had a tattoo on her ankle and she married a preacher. It took her a long time to get rid of that tattoo because back then they were hard to take off.

19: Show more of your body in front of the camera and not to close. I like to see most of your body and not just one small part. I enjoy watching you tease by standing a short distance from the camera. Dancing is not to bad but moving sexually is a plus. I prefer you to be naked but sexy see through lingerie will do also.

20: Just laying in front of the camera is a big turnoff. A good cam model will always entertain you. It's a cam models job to turn you on. You make more money turning on your viewers. You can be creative in what you do but always try hard to turn on your viewers and this will make you more money.

21: I'm a leg and ass man, so showing a lot of leg and ass is a plus. Staying back a short distance from the camera showing your legs and ass is what I like to see.

22: I like to see cam models side view like doggy style showing all of your body. This is a turn-on for me and for most viewers that I have talked to. I get turned on looking at a cam model on her bed doggy style.

23: Vibrators. I see a lot of you cam models with that little tail sticking out of her pussy or her ass and it looks bad. I know it's Lovense and your viewers control the speed. It does nothing for me but may for others.

24: Fucking machines. I like fucking machines but I don't like your ass stuck up in front of the camera to close. Stay back a short distance from the camera and sometime show your body doggy style getting fucked by a fucking machine. If you stay there in front of the camera just waiting for a viewer to tip you tokens to make the machine fuck you is a turn-off for me and I will leave. I know this is a way to make more money but still a turnoff. No one wants to watch you just being there waiting. We want that fuck machine to fuck the hell out of you.

25: If you're a couple and your giving him a blowjob, make sure you show a side view of your body and not your ass stuck up in front of the camera. Giving a blowjob doggy style works for me and is a turn-on.

26: Giving a handjob is alright as long as you don't look bored. Most models look bored when giving a handjob. Make sure all of your body is showing when giving head and handhobs. When giving head or a handjob, you should look like you're really enjoying it.

27: I like it when a cam model is on all fours on the bed a short distance from the camera. This is a turn-on for me. I also like it when your standing with your back to the camera occasionally looking back at the camera.

28: Remember to stay back from the camera a short distance. This will show your body much better with better skin tone. I have seen some cam models way to close to the camera and it shows veins if they are light skinned.

29: Always show more of your body or be completely naked most of the time. Your viewers are they to see you naked and not to see you fully dressed just typing away.

30: I hate it when I see a cam model smoking or eating in front of the camera. This is a big turnoff for me. I've seen cam models fully dressed and cooking while their cam is on. Not very professional. Never leave your camera. When this happens to me I leave quick. It's rude to leave your camera area. Make sure you have everything close by not to leave your post. It's not so bad when a cam model is drinking something and maybe some chips but not a meal while camming, it's rude.

31: When searching for cam models, I look for those that are naked. I pass on the ones setting in front of the camera typing away fully dressed.

32: I like to see cam models deep throat dildos and the deeper they take it down is a turn-on for me.

33: Having only one profile picture is a no no. All cam models should have more than one profile picture. One without clothes, one with something sexy on, like lingerie, and one partially nude. Make sure to show your face, tits, legs and ass. This will get you more attention.

34: When I come upon a cam model that ant there I leave. I have went to many cams to find the models not there. I wait for a second, then leave. It's not nice to leave your camera area. This will loose you money.

35: Cam Models should always have their hair fixed nice and sexy, and not look like you just got up. Use nice colorful makeup. Colorful makeup looks better in front of the camera. A cam model should always want to look her best while performing. Take pride in your work and it will show others that you're a professional.

36: If you're an older model, make sure to use colorful makeup and stay a short distance back from the camera to be seen without any blemishes because when we get older our skin gets older. I'm not knocking you for being older because I'm older myself. I'm just explaining what the camera does.

37: Toe sucking. I hope I never come across a toe sucking cam model again because it makes me sick. This is a turn-off for me, but may turn-on others.

38: When a cam model has her pussy up close to the camera and has a wet pussy looks bad to me and turns me off. Maybe others might like it but not me. Being to close to the camera is a bad look for cam models and many may not even know this, so I'm telling you now. Stay back a short distance from the camera because the camera is not your friend here.

39: When I'm watching a beautiful cam model setting in front of her camera fully dressed, I watch her in hopes she will start taking her top off or soon I will leave, so keep this in mind the next time you have clothes on and remember that your viewer wants you to take off your clothes and if you don't they will leave quicker.

40: I tend to watch the cam models that have the most users longer than those who have under 100 users. The ones that have over 1000 users are doing something right in most cases but some could still use some advice. There is always room for improvement no matter what you do in life.

41: I see a lot of cam models have a wish list. This is in poor taste and a form of begging for something. This really turns me off. If you're doing everything right, than you should not have to have a wish list. To each their own, this is up to you.. The truth is, if you're making a lot of money, why would you have a wish list. You should be able to afford everything on your wish list.

42: Creating a nice background for your viewers is a plus. The background behind you should look nice. I've seen some backgrounds with different colored lights, some with country flags which is also nice, and mirror/mirrors in the background which is a great tool for multiple views. I'm just one viewer and there are millions that may or may not share my views, but most that I have talked to think like me, but that is just a hand full. If you're making a ton of money with less hours, than maybe you're doing something right and feel your way is the right way. I'm sure you might find something here to help you become a better cam model. I just know what I like as a viewer. I hope I have not offended anyone with the words in this ebook and if so, it was not my intent to offend you and I'm sorry. I hope that the readers of this ebook will learn something from what I have written to maybe help you to become a better cam model performer and hope you make a ton of money.

I know some of you may or may not take any advice from me and that's alright but keep in mind that as a cam model you can make a lot of money by just doing some things a little different. It's alright to tease but not to long at a time and to be fully dressed but also not to long. There's nothing wrong with teasing, a lot of viewers like that, but teasing to long without showing your tits, ass or pussy will turn them away. I was watching a model that kept pulling her top down slowly and I was wanting to see her tits, but she kept teasing and I was ready to leave and then she showed her tits and then her ass and it was worth the wait. So there's nothing wrong with teasing but not to long. I like being teased for awhile as long as I feel she will show me something.

I mentioned that there is agents searching for talent but I forgot to mention that there is the adult industry also looking for models to work in the porn industry. If this is something you prefer. The adult porn industry is not for everyone but some may want to try it out and the porn industry pays much better. As a cam model you have control, in the porn industry, you don't!

I see some cam models having fun by the way they carry their self on camera. There's nothing wrong with enjoying your work. Most people don't have that luxury to have fun at work and it's very important to have fun while working.

Everyone has a mind of their own and do things their way and this is alright but changing a few things around every now and then wont hurt. Mix it up what you do on camera and try many different things to see what works best for you and you will find what works best.

I mentioned this already but will say it again. I own and maintain over 200 websites, adult and no adult sites. If you sign up at any of the cam sites below, contact me at any of my websites below and send me your user/screen name and a nice nude or non nude photo. and I will add you to some of my websites. I will help you get more exposure and as a new cam model, you'll need more exposure to get yourself established much quicker. The quicker you get established the quicker you'll make money. Getting established means more users, meaning more cash. Tokens are king...

Some cam models create their own brand and this will carry them through to the big bucks. "Brand" meaning, they're established for something special that they do and how they do it and this is why it's very important to create your own brand. Finding your brand is something that doesn't come easy but you will find it from trying new things. It could be anything, like a certain way you perform, or the way you carry yourself on camera. It can be anything. A Brand is something that nobody else does it like you do. I mean you might not be the only one that does a certain thing in a certain way but different than others. I don't know if I'm explaining this the right way. A Brand is like a trade mark that only you have. You've seen "TM Trade Mark" on many of products and businesses and even on domain names

which means you can not use that TM. Now as a cam model, anyone can do the same as you do but some special cam models do it much better, so they stand out. When a cam model is established and performs special shows, this can be her brand. You might give head to a dildo a special way that really turns on your viewers that makes him/her come back for more. It could be the way you tease that brings viewers back for more. It can be the way you moan. It can be anything.

In the last part of this ebook, I will show you how you can get your own fan site free. You can sell your own videos, images, and even products. You will get a free site with all the extras FREE. Check it out for yourself.

There's a lot of ways to make money if you don't mind being nude on camera. You see, cam modeling is not the only way to make money on the net. No matter your body size, there is a place for you as a cam model. Everyone is different and has different taste, so don't think you're not as good, sexy or pretty as the next cam model, because no matter your size, there is someone out there that will like you and want to watch you. Also no matter your age, there's a place for you and many viewers will come to see you. I like older women myself but don't mind watching the young ones. They all have something to offer. When I was young, I was very lucky because women hit on me everywhere I went and I used that to get women, but it was bad on my part. As I got older my life changed. I now have respect for women and enjoy the company of a lady, but don't mind when they get a little slutty.

I know I'm just rambling on here. I want to add as much as I can the first time and not have to come back to add anything later.

I know the competition is great as a cam model because there are many different cam sites with millions of cam models, so the best way to stand out among your competition is to perform in a way that no other cam model is doing. You have to find your brand or niche and go for it. Try many different things to stand out among the competition. If you're a couple, suck that cock like I would want to be sucked, or eat that pussy like you want it done to you. Finger your ass like a viewer wants his/her ass fingered. Doing things that come natural in a way that no one else is doing, is the key. Perform like I want you to perform. Play with your tits in a way that turns on your viewers. So perform for your viewers. If you stand out, than you wont have much competition. Viewer look for certain cam models for the way they perform. This is what you need to find out, to stand out among your competition.

Cam modeling is not just for females. There are many different races, and genders. Male models have to be good looking with a great body and this is sad but the truth because women do not want to watch an ugly guy, over weight, and a pervert. This is the way it is. So guys have it much harder than female models. I like Asian cam models because I like petite girls but don't mind any size woman. I don't watch male cam models but I will promote them on my sites. I prefer blondes but brunettes and redheads are great also. Now if a woman is in her seventies, that's a turnoff. A woman in her seventies should not perform and I'm sorry to feel this way but I'm being truthful here. There should be a cutoff age I think. Girl on girl is a plus for me because you get two for one and two naked women really turns me on, especially if they know what they're doing. I have viewed many of cam models with two girls and most of the time one is beautiful and the other is not as pretty, so I tend to give all my attention to the pretty one. I don't mean to say I don't like the one that is not as pretty as the other one, it's just the way it is. When I was younger I was with two women many times and the pretty one got all of my attention and this is just normal. I don't mean I would not fuck both of them because I did. But the hottest one will get more attention.

I keep rambling on. I keep thinking of something else to add. I think you know what I'm talking about

here. To be a stand out established cam model, you must figure it out and try many things to learn how to stand out above all the competition to be number one. Most cam sites offers cash prizes to the best performing cam models, some give you \$10,000 a month for the most outstanding performers. So learn how to stand out among the best and make extra money in prizes every month. If you win a prize means you made a lot of money that month just to win that prize.

If you wanna make more money as a cam model, and you're not happy with the cam site you're working for, read below to the end.

## What The Top Ten Cam Models Make?

### How much are the top webcam girls making?

#### The Top 10 webcam girls countdown

If you are a cam girl, chances are you are supplementing your income with a few shows here and there. But did you know there are women in the cam industry taking home six figure salaries? That number does not even include all the bonus lavish gifts admirers purchase from the girls various wish lists. Interested to learn what the top earners are making? Here is a breakdown of the top 10 cam girls.

#### \*\*\*\*\*1. Kickaz from MyFreeCams:

**Kickaz** is an artist, entertainer, and burlesque performer from a place called Kickland. Her shows are a combination of sensual performance art mixed with old school vaudeville. Her fans come for her personality, not just her body. So what does a performer like Kickaz make in a year from camming? Let us look at how many tokens she received month by month:

That is a total of 12,073,925 tokens in 10 months of camming which equates to a take home gross of **\$703,696**. Kickaz indeed.

#### \*\*\*\*\*2. PumpkinSpice\_ from MyFreeCams.com

**PumpkinSpice\_** is cashing in on her cuteness with an all-encompassing social media presence. When she is not in her room putting on a show, you can still catch her updating her tumblr account, Twitter, and Instagram profiles.

**PumpkinSpice\_** is a mastermind at creating her own little world and she is got the bank account to prove she is more than just a kawaii face. Here is a breakdown of her token earnings from last year.

That is a total of 13,073,249 tokens, which comes to a gross of **\$653,662** for

**PumpkinSpice\_**. Not too shabby for the otaku bae as she calls herself.

#### \*\*\*\*\*3. Abella Anderson from Naked.com

**Abella** Anderson is a Cuban born webcam model and adult film superstar. In addition to her film work,

Abella has been a spokesmodel for New York City based lingerie retailer Eye Candy Sensation and Miami based shoe company Foot Soldiers. She has also appeared in Childish Gambinos short film Clapping for the Wrong Reasons and starred in the lyric video for Gambinos song 3005. When Abella is not flying around the world for her paid appearances (where she commands a \$10,000 fee) she can be found camming. Her loyal fans have catapulted her into the top spot on Naked.com where she reportedly earns **\$550,000** a year. We interviewed Abella Anderson.

#### **\*\*\*\*4. Ginny Potter from MyFreeCams**

**GinnyPotter** is a single non-drinker with a penchant for DIY projects (which is why she asks to be gifted in Home Depot cards.) Aside from cam modeling she makes money by selling items she wears for her legions of fans. Here is how much she made in front of the camera last year:

**GinnyPotter** was tipped a total of 10,957,241 tokens in 2015 which netted her **\$547,862**.

#### **\*\*\*\*5. Olivia from MyFreeCams**

**Olivia** is a bit of a MyFreeCams.com wildcard. She is not your typical, bubbly cam girl even though her profile says Always a sunny day! She is Native American, 34-years-old, and cams every couple of months. Even though she is not a regular she makes quite a pretty penny. Here is how much she made in 2015: Olivia worked a total of four months and walked away with a cool **\$547,862**. Not bad for only working 120 days out of the year.

#### **\*\*\*\*6. AspenRae from MyFreeCams**

**AspenRae** describes herself as a Professional Masturbator and she makes quite a living doing what she loves. The 25-year-old, 110 pound psych major is one of MyFreeCams.coms top earners and quite the businesswoman. Aside from her lucrative cam career, she also charges a fee if you want to follow her on SnapChat or join her G.O.A.T. team (you will have to visit her page to find out what she means by that.)

**AspenRae** earned a total of 9,314,066 tokens, which equates to **\$465,703**. That is not even taking into account the thousands of dollars of clothing and jewelry that has been lavished on the brunette beauty.

#### **\*\*\*\*7. Jalyn from MyFreeCams**

**Jalyn** is a master at making money on the Internet. With her cam shows netting her a six-figure salary and her Amazon wish list being fulfilled on a daily basis, this cam girl knows how to get what she wants. On top of her live show she also charges if you want to follow her on Twitter and she requests even more for a private message session. Here is her breakdown for the year:

**Jalyn** earned a total of 9,147,303 tokens, which amounts to a gross of **\$457,365** in 2015 making this 9 time winner of Miss MyFreeCams a tough one to beat.

#### **\*\*\*\*8. LexxiStar from MyFreeCams**

**LexxiStar** is a bisexual Asian and super earner on MyFreeCams. With an average rating of 5 stars from 13,321 voters, this cam girl is making bank. LexxiStar is a perfect example of how much a cam girl can

earn working part time. Obviously not everyone can be a top earner like Lexxi, but not everyone is a top performer like Lexxi.

She only cammed for 5 months last year and took home an impressive 8,073,820 tokens which comes to **\$403,691**. Not bad for a seriously part- time gig.

#### **\*\*\*\*\*9. Selena Adams from Naked.com**

**Selena** Adams is one of Naked.coms best cam girls with a loyal fan base and two fan proposals under her garter belt. What the Latina superstar lacks in height (she is only 5 feet tall) she makes up for with stacks of cash. She reportedly pulled in close to **\$375,000** last year while camming only part time. Her fans love her willingness to please and her caring disposition, which is why she has been asked for her hand in marriage from fans not once but twice last year. Aside from her earnings as a cam girl, fans have gifted her enough high-end clothing to fill the free Mercedes-Benz she received as a present. She is currently building her dream house in Miami with a second investment property on the horizon.

#### **\*\*\*\*\*10. Natalia Grey from MyFreeCams**

**Natalia** Grey is a cute cat lady from MyFreeCams who earns about as much as a 3<sup>rd</sup> year attorney but gets to work from the comfort of her bed or counter or bathroom. Here is the breakdown of her yearly, part-time earnings from Natalia Grey took home a total of 3,516,734 tokens, which netted her **\$175,837** last year. Remember, these figures do not include the amount of money these top earners are making by charging to view their Snapchats, advertising on Instagram, and sending private messages on Twitter. Camming can be an incredibly lucrative and fun way to earn major dollars and these top earners have the designer bags and dream houses to prove it...

# A List Of Some Great Cams To Work For!

I revised this ebook and did not add in all the details of each cam site because it would take up more space in this ebook and make it much larger to download.

## 1: Bonga Cams:

I have been promoting Bonga cams for as long as they have been going, and I think their cams are state of the art. They have plenty of marketing tools to promote with and the cam models are treated as royalty.

## **Conclusion**

I know I have these cam affiliates rated from first best cam affiliate down but the truth is, all are great affiliates but my best picks are number one two and three, and six. Thank you reading my ebook and I hope in some way you can take something from this ebook that will benefit you as a cam model or in anything you do in life.

I did not mean in anyway to offend anyone nor to suggest to anyone that you need to do things in this ebook my way, only another way to do things in your field of work that may or may not benefit you.

### **Thank You**

If you don't want to be a cam model maybe you might want to become a model agent and recruit new cam models and make a bunch of money from cam models and recruiters. Have others work for you by signing them up under you. Ten good models, you can quit your day job and set back a let them earn you money. If you had ten motivated webmasters under you, you could make a ton of money.
